<p><b>Page 9 &amp; 12:</b> Where possible any child/student who lives with a school-aged sibling who has tested positive in the last 10 days, <b>should not go into their education setting</b>, and should take a PCR test <b>3 to 5 days after the onset of symptoms, or the first positive test in the household (whichever was soonest)</b>. They should stay away from their education setting until a negative result is received. If positive they must isolate for 10 days. <b>Communicate this new advice to staff and pupils.</b></p>	SLT	13/10/2021		M
<p><b>Page 10:</b> Dispose of all waste that has been in contact with the suspected case, including used tissues, and masks if used. These should be put in a plastic rubbish bag and tied when full. The plastic bag should then be placed in a second bin bag and tied. This should be put in a suitable and secure place and marked for storage until the individual's test results are known This waste should be stored safely and kept away from children. It should not be placed in communal waste areas until negative test results are known, or the waste has been stored for at least 72 hours. If the individual tests negative, this can be disposed of immediately with the normal waste. If COVID-19 is confirmed this waste should be stored for at least 72 hours before disposal with normal waste. If during an emergency you need to remove the waste before 72 hours, it must be treated as Category B infectious waste and must keep it separate from your other waste and arrange for collection by a specialist contractor as hazardous waste</p>	Site Manager	24/09/2021		M

RESIDUAL RISK RATING	ACTION REQUIRED
<b>VERY HIGH (VH) Strong likelihood of fatality / serious injury/illness occurring</b>	<b>The activity must not take place at all.</b> You must identify further controls to reduce the risk rating.

<b>HIGH (H) Possibility of fatality/serious injury/illness occurring</b>	You must identify further controls to reduce the risk rating. Seek further advice, e.g. from your H&S Consultant
<b>MEDIUM (M) Possibility of significant injury or over 7 day absence occurring</b>	If it is not possible to lower risk further, you will need to consider the risk against the benefit. Monitor risk assessments at this rating more regularly and closely.
<b>LOW (L) Possibility of minor injury/illness only</b>	No further action required.
